### Cayman Jack from American Vintage Beverage

Cayman Jack is obsessed with natural ingredients. It's about creating the most refreshing margarita in the world. Margaritas live and die by their limes. While other margaritas choose to use lime flavorings and chemicals, Cay-

man Jack has a higher standard. When it came to taste, natural is better. Caymen Jack uses the freshest organic limes, carefully hand-picked by local growers. They give the margarita an ultra-premium, authentic, refreshing taste like no other. Cayman Jack also knows that the mark of a truly good margarita is its agave. Cayman uses only 100% Blue Agave nectar, the best quality. Once again, there will be no compromises on taste. In keeping with the 'natural is better' mindset, Cayman Jack uses pure cane sugar for a refreshingly sweet and natural taste. Satisfied with these ingredients, we blended them with our ultra pure malt base. Made from premium beer that has been purified and filtered over 10 times, it's a taste as pure and clean as vodka. In order to give our margaritas an extra kick, Cayman Jack settled at 5.9% as the perfect balance of strength and refreshment. Available in 11.2oz NR and 16oz cans.

#### Anchor Humming Ale

This bold, frothy, effervescent ale, with hints of citrus, finds its name throughout English literature that might just as well describe its taste, its history, or just how it makes you feel. The recipe for Humming Ale and its resulting flavor, owe much to the traditional methods used to make Anchor Liberty Ale. Both are brewed using pale malt, a natural carbonation process called “bunging,” and dry-hopping, but the unique flavor profile of Humming comes from a distinctive hop from New Zealand called Nelson Sauvin. Humming is an ancient beer term used to describe a strong, effervescent ale with a lot of character or just in praise of a truly good beer.
